Term 4 Week 1

I hope you have all had a relaxing and enjoyable half term.

I hope the children enjoyed their first experience of Mathseeds.

Prior to sending the logins home, the children had to complete an online assessment to determine the starting point for the programme. If your child is finding the activities too easy, or too tricky, let me know and I can adjust! I would be interested to hear any feedback.

Over the next two weeks, we are going to be writing recounts of a personal experience. It would be great if you could send in a photo of something that they have done over half term, to jog their memories!

Reading

As always, please listen to your child read each day.

Spellings

This week, we are spelling words contain 'sion' and 'sure' and the related activity will be coming home on Friday.

Maths

This week, we are beginning a unit on money. If possible, let children explore the coins and notes you have in your house, so that they become really familiar with the shape, size and value of each.

Can they make different amounts using the coins and notes?

Can they order the coins and notes according to their value?

Continue to play Mathseeds!

I hope you have a lovely week.
